

Customized **tax-exempt lease purchases** for commercial vehicle financing to **municipal borrowers**.

In a fast-changing and dynamic world, managing your fleet needs within a constrained budget can be an immense challenge. Through our equipment finance relationships, we strive to deliver tax-exempt financing solutions designed to support your financial and operational objectives.

### **Ideal for:**

- Government entities including states, cities, counties
- K-12 school districts, public colleges and universities
- Special districts (ports, fire, transportation, water, sewer, power and health)

### **Flexibility to accommodate your needs**

- Optional down payment
- Monthly, quarterly, semi-annual and annual payment frequencies
- Lease tenors up to 144 months
- Financing for a wide range of new and used trucks, tractors, trailers, school buses, etc.
- Financed implementation and soft costs (vehicle titling fees, service solutions, extended service contracts, BEV chargers and more) allowable up to 25% of original equipment cost

### **Equipment financing can provide:**

- A match between the useful life of the commercial vehicles and the financing term
- Expedited and competitive access to capital
  - Typically no voter approval required
  - No agency rating or bond insurance required
  - No financial covenants required
  - Typically no pledge of revenue or covenant to levy additional taxes required
